TITLE: CLOTH STRUCTURE HAVING WATERPROOF AND MOISTURE-PERMEABLE PROPERTIES FOR WADERS

Revised Supplemental Preliminary Amendment: CLAIM AMENDMENTS

On page 10, the paragraph beginning with "What is" and ending with "claimed is:", please amend the paragraph as follows:

[What is claimed is:] CLAIMS

I claim:

Please cancel Claim 4. Applicant has elected Group I, Claims 1-3.

1. (Previously Presented) A waterproof and moisture-permeable cloth structure for a wader comprising:

an outer cloth layer of a material freely stretchable in each direction, selected from a group comprising lycra jersey, nylon jersey and polyester jersey;

a cloth layer of a waterproof and moisture-permeable material comprised of a rubber or vinyl waterproof material having a plurality of holes therein and a cloth material treated with a coating of polyurethane resin having waterproof and moisture-permeable properties so as to enhance the breathability, whereby precipitation or moisture can be eliminated smoothly; and

an inner cloth layer of a reticular lining material, which is woven of stretchable filament so as to be stretchable in each direction and having a soft-feeling.

2. (Original) The cloth structure according to claim 1, wherein the cloth layer of a waterproof and moisture-permeable material is a laminate comprising a plurality of cloth layers of a waterproof and moisture-permeable material.

3. (Previously Presented) The cloth structure according to claim 1, wherein the inner cloth layer of a reticular lining material is woven of stretchable filament selected from a group comprising nylon filament, polyester filament, spandex filament, or natural or artificial rubber filament.

Claim 4 (canceled).
